

Advanced EDA & Feature Engineering

Professional Analytics Report

Dataset Summary

Dataset Shape : (1192, 20)

Total Revenue : \$1,237,728.56

Average Order Value : \$1,038.36

Customers : 1182

Products : 7

Business Insights

Top Selling Product : Printer

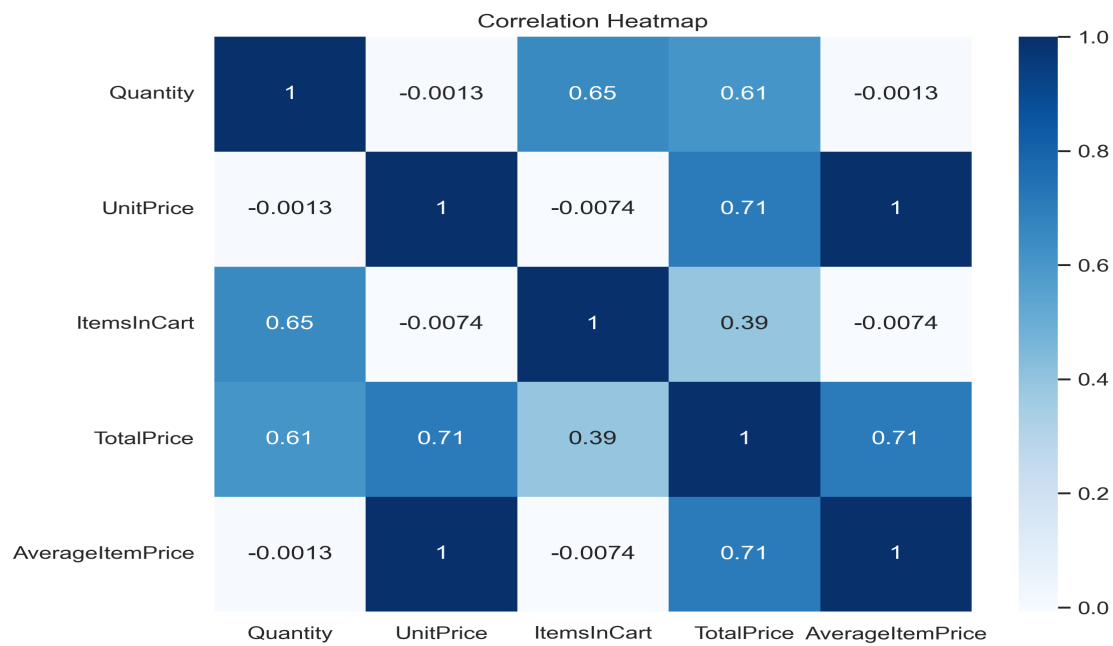

Most Used Payment Method : Online

Most Common Referral Source : Instagram

High Value Orders : 596

Orders Using Coupon : 885

Correlation Heatmap

Conclusion

This project demonstrates a complete end-to-end Exploratory Data Analysis workflow including data cleaning, feature engineering, statistical analysis, visualization and business insight generation. The generated findings help understand customer behavior, sales performance and business trends for better decision making.
